

## Swedish Genealogical Society of Colorado

# 2019 SwedGen Seminar

**SwedGenTour 2019** Representatives will be touring the United States again this year and will include a stop in Denver. This group of internationally recognized Swedish genealogists teaches and assists Swedish-Americans in finding their roots and researching their Swedish heritage. See demonstrations of Swedish genealogical online sites and databases as well as Swedish genealogical and emigration CDs. There will also be opportunities for individual research assistance.\*

**Lantmateriet**, the Swedish mapping, cadastral, and land registration authority, will also be participating. Lantmateriet manages the Swedish cadastral system and is responsible for providing present-day and historical geographic maps and data. Their free website allows for searching of historical maps from Lantmateriet's digital archive and includes Swedish maps dating from the 17th-20th centuries.

**One-on-One Session:** SwedGen will meet with participants who have questions about their research. However, questions will be researched on site as opposed to pre-seminar research by the SwedGen genealogists as has been done in the past. There will be time for a limited number of One-on-One sessions. These will be scheduled on a First-come, First-served basis – determined by the “received date” of your registration.
